ABOUT ME

I am a Front-End Developer. I have expertise designing and maintaining websites with a unique and distinctive style. I design websites that are compatible with all browsers and responsive to all screens (responsive) and convert the design from (XD / PSD) to clear code and use CSS / CSS3 to show the site in a modern and distinctive way in addition to modifying a ready-made site with high accuracy and designing landing page. I have a management skills and I can work under pressure In addition that I have work with team skills. I strive to deliver the complete and unique client satisfaction on time with accuracy and high speed in self-implementation in a project and adjustments in a project and modifications.
